## PROFILE

---

Motivated and detail-oriented Informatics student with strong interest and experience in web development and software engineering. Capable of building engaging website interfaces using modern JavaScript frameworks and developing entry-level backend applications. Experienced in full-stack development workflows and various SDLC methodologies. A proactive learner who has completed several certified bootcamps and actively contributes to campus tech communities through seminars and collaborative projects.

## SKILLS & ABILITIES

---

### Hard Skills:

- Programming Languages: PHP (Intermediate), TypeScript (Intermediate), Dart (Beginner)
- Frameworks & Tools: JavaScript Frameworks (React/Vue), Flutter, REST API, Git & GitHub, Postman
- Design & Prototyping: Figma, CapCut
- Office Productivity: Microsoft Word, Excel, PowerPoint
- Development Workflow: Agile, SDLC, Version Control

### Soft Skills:

- Effective team communication & collaboration
- Public speaking & mentoring (e.g., campus seminar speaker)
- Fast learner with strong adaptability
- Critical thinking & problem solving
- Self-motivated and proactive

## EXPERIENCE

---

### Frontend Developer (Intern) | Universitas Teknologi Sumbawa | Sep 2023 – Dec 2023

- Built and deployed a responsive website using TypeScript and modern JS frameworks.
- Participated in team-based projects simulating real-world SDLC processes.
- Delivered a tech seminar session during “Kelas PWTI” organized by a campus organization, sharing insights on frontend development practices.

### Flutter Beginner Course | Dicoding Indonesia | 2024

- Learned the basics of mobile app development using Flutter and Dart.
- Built beginner-level applications applying Flutter widgets and layout concepts.

### Fullstack Developer Trainee | PT. Amman Mineral x Pintar.co | 2023

- Completed an intensive bootcamp focused on both frontend and backend development skills.
- Collaborated on capstone projects that applied Agile principles and REST API integrations.

## **Backend Developer Student | Dicoding Indonesia | 2022**

- Gained foundational experience in backend systems, including database interaction and API building.
- Built structured backend solutions and learned industry best practices for clean code and architecture.

## **EDUCATION**

---

### **Bachelor of Informatics | Universitas Teknologi Sumbawa | 2023 – Present**

- Active in campus tech communities and seminars.
- Gained practical experience in frontend development through project-based learning.

### **Vocational High School Diploma in Software Engineering | SMK Negeri 1 Lopok | Graduated 2023**

- Specialized in software development fundamentals.
- 2nd Place Winner of Provincial Software Development Competition (LKS) in 2022.

## **CERTIFICATIONS**

---

- **Program dan Pengembangan Piranti Lunak** – [BNSP](#)
- **Digital Skill Batch 2: Full Stack Developer** – [PT. Amman Mineral x Pintar.co \(2023\)](#)
- **Backend Developer Path** – [Dicoding Indonesia](#)
- **Building Apps with Flutter for Beginners** – [Dicoding Indonesia](#)

## **ACTIVITIES AND INTERESTS**

---

- Winner – 2nd Place in Provincial LKS Software Development Competition
- Public speaker and mentor in university tech seminars
- Passionate about reading, badminton, and football
